

PRESIDENT GIL SUGGESTS REFUGE

Revolutionists Have Upper Hand
in Santo Domingo.

GERMAN WARSHIPS PRESENT STEAMER ATHEN HAS LANDED HER CARGO.

Santo Domingo, Nov. 11.—The revolutionists have addressed a letter to United States Minister Powell stating that engagements entered into with the United States by the government, presided over by General Wos y Gil, will not be recognized by them.

Minister Powell requests that Minister to Santo Domingo, Nov. 11.—Further advice from Santo Domingo, from which place it was reported yesterday that the capital of that republic, San Domingo, had capitulated to the revolutionists and that General Jimenez had been proclaimed president, say that during the last hours of the fighting the city of San Domingo was threatened with bombardment as a result of the resistance of the government troops.

A dispatch received in Paris last night from Cape Haytien announced that after three days fighting the president of Santo Domingo, General Wos y Gil, took refuge in the German consulate at San Domingo. It was added that the revolution was considered to be at an end.

DELAYED DISPATCH.

Presence of More Warships Urgently
Required.

San Domingo, Republic of Santo Domingo, Tuesday, Nov. 10.—The city is closely besieged by the revolutionists and commerce is paralyzed. Firing around San Domingo continues. Many shells are falling into the city. The political situation is unchanged. The German warships Panther and Galle are here.

Previous to beginning the bombardment of San Domingo, the revolutionists notified the diplomatic corps and the consular officials that they had previously served notice on the Dominican government that the forces of the revolution intended to adopt all means, including bombardment, in their efforts to capture the city. The representatives of the powers met today and decided that they could only hold communications with the legally established government of the country.

General Paul Cabrera, at the head of 800 revolutionists, with six pieces of artillery and a treasure chest containing \$4,000, arrived yesterday before the city.

The guard for the German consulate which was landed from the cruisers of Germany now in port is in constant communication with the city by means of a signal station which has been erected over the consulate.

The German steamer Athen, which was prevented some days ago from landing her cargo at San Pedro de Macoris, has under the protection of a gunboat, arrived at the port and has proceeded to the northern ports of Santo Domingo, for which she has cargo and passengers. The Athen has a German military force to proceed to Santo Domingo if the revolution there renders such a step necessary, for the protection of Italian subjects.

No More Bombardment.

Washington, Nov. 11.—Cavalry Brigades, commanding the cruiser Baltimore, and the navy department today from Puerto Plata that the German flag is flying north of Macoris and San Domingo City. It is said at the state department that the instructions of the naval officers are of a character to prevent any further bombardment by the government of insurgent forces of any San Domingo ports where American interests are involved, without notice required by international law.

MOUNTED TROOPS IN PURSUIT OF NATIVES

Berlin, Nov. 11.—The governor of German Southwest Africa cables that 300 mounted troops with four guns have arrived in the vicinity of Garmat, but he does not mention any fighting with the rebellious natives who, seemingly, are not combating the advance of the troops.

It is believed that in consequence of the German representations the British and Portuguese police in the adjacent territories will endeavor to prevent further supplies of arms and ammunition being sent across the border by traders.

New York, Nov. 11.—Before departing for Washington today Count Cassini, the Russian ambassador in an interview, spoke of the pleasure he felt in being continued in his post at Washington, the friendly feeling of Russia and Russians toward the United States and the position of Russia in the Macedonian situation, asking to be excused, however, from commenting on the far eastern situation, the ground of his recent arrival and lack of late information on the subject. In regard to the Trip dispatch to the London Daily Mail, published today, that Russia was evacuating Korea, he took occasion to say that Russia had no troops in Korea itself, having only small garrisons at Manchu and Che-mulpo.

CUT IN WAGES.

Ten Per Cent Taken From Cotton Mill
Operatives.

Fall River, Mass., Nov. 11.—Notices were posted today that the cotton mills here announcing a general reduction of 10 per cent in wages, in the effect of which about 5000 employees are affected. The cut is attributed to the unsettled state of trade resulting from the high price of raw material, and to a pronounced hesitation to buy on the part of usual purchasers. The action taken in Fall River is of widespread importance, since a step taken by mill owners in southern and central Massachusetts, Rhode Island, and eastern Connecticut, where a total of about 50,000 men are employed.

Boston, Nov. 11.—When the news of the cut in Fall River cotton mills was made known today, the cotton mills of the American Federation of Labor said that it was not an unwelcome step at this time that was this reduction. Mr. Rogers said the matter probably would be taken up by the American Federation of Labor this week.

SEVENTY YOUNG DEMONS.

Pupils of the "Gentler" Sex Maltreated
a Classmate.

Baltimore, Md., Nov. 11.—In a wild frenzy of revenge, seventy members of the graduating class of the Western High school have set upon Miss Lily Bengert, their classmate, whom they accused of being a "tale-bearer." They scratched her face until the blood ran, pulled her hair out, tore her hat to pieces, kicked her books into the gutter, and then tried to tear off her clothing. Miss Bengert finally broke away and ran, pursued by nearly 200 girls. She finally dashed into a grocery, and the clerks barred the door until the police scattered the crowd. The rioters were 15 to 18 years old, and the scene of the trouble was the most fashionable quarter of the city.

PROTECTION FOR CUBA.

United States Navy Has Undertaken
the Job.

Washington, Nov. 11.—Without any formality the United States has taken actual possession of the coaling station at Guantanamo. Although the flag-raising was a naval base, it was learned at the navy department today that the transfer was effected in a quiet manner several days ago. Under the arrangement, Cuba will pay the owners of the property. It was explained that the moving factor in the transaction was the knowledge that Cuba was without a navy, and as the United States has undertaken the protection of the island against a foreign foe and desires the station as a naval base to protect its own interests the transfer was made in order that this government might complete its plans mapped out some time ago.

"FREE FOODERS" IN BIRMINGHAM

Chamberlain's Home Town In-
vaded by Winston Churchill.

RIOT ALMOST PRECIPITATED STONES THROWN AND SOME WINDOWS BROKEN.

Birmingham, England, Nov. 11.—There was no fulfillment of the serious trouble expected at the meeting addressed here tonight by Lord Hugh Cecil and Winston Churchill, M. P., in opposition to the fiscal programme of Joseph Chamberlain. It is estimated that the crowds surrounding the town hall during the progress of the meeting numbered 40,000 persons. A few stones were thrown and some windows broken, but it is believed the prevention of more serious disorders was due to the earnest appeal of the supporters of Mr. Chamberlain, supplemented by the advice of the local newspapers, which carried with it the power to regulate trade with the territory so occupied and to impose such conditions on the English corporation to maintain a suit in the court of claims against the United States.

CASE IS IMPORTANT.

Suit Over Military Tariff in the Phil-
ippines.

Washington, Nov. 11.—The bureau of insular affairs, through its law officer, Charles E. Macoon, has filed answer in the court of claims to the suit of Warrent, Manila, P. I., an English corporation, to recover from the United States the sum of \$42,234, as import duties collected in Manila and Iloilo on goods brought from the United States into the Philippines between Dec. 10, 1898, and Dec. 1, 1902, the time between the signing of the treaty of peace and the passage of the Philippine tariff act. The case is important in that it will determine the question as to whether the military government of the Philippine islands could levy tariff on goods coming from the United States into the Philippines. The government insists that the insurrection in the Philippines created a condition of war and justified the president in subjecting the territory of the islands to military occupancy in the effort to suppress the insurrection, which carried with it the power to regulate trade with the territory so occupied and to impose such conditions on the English corporation to maintain a suit in the court of claims against the United States.

EXISTING LAWS ARE DEFECTIVE

Hansbrough's Bill to Repeal
Timber and Stone Act.

AMENDS LIEU LAND SECTION

OTHER FEATURES OF THE NEW
MEASURE.

Washington, Nov. 11.—Senator Hansbrough introduced a bill in the senate which, by implication, repeals the timber and stone act, under which land is now acquired at \$2.50 an acre regardless of its real value. The measure is intended to cure defects in existing laws, check speculation in public timber lands and put an end to the frauds which recently have grown into a national scandal. It was referred to the committee on public lands, of which the author is the chairman.

THE SECRETARY OF THE INTERIOR IS AUTHORIZED UNDER THE NEW BILL TO MAKE EXAMINATIONS AND ESTIMATES RELATIVE TO THE QUANTITY AND VALUE OF THE TIMBER AND STONE ON THE PUBLIC LANDS AND TO SELL THE RIGHT TO DISPOSE OF THE SAME IN SUCH QUANTITIES AS MAY BE ADVISABLE TO THE HIGHEST BIDDERS. THIS PLAN IS NOW PURSUED IN THE SALE OF TIMBER ON INDIAN LANDS IN MINNESOTA. THE TITLE TO LAND REMAINS IN THE GOVERNMENT AND THE SECRETARY OF THE INTERIOR MAY FOR THE LIMIT OF TIME IN WHICH THE PURCHASER OF THE RIGHT SHALL REMOVE THE TIMBER OR MAKE IT A MERCHANTABILITY QUANTITY IS MADE INALIENABLE.

Effect of the Bill.

If Senator Hansbrough's measure becomes a law all the timber land on the public domain will be withdrawn from entry and the government will enter upon the policy of disposing of its timber at its market value. One provision in the bill prohibits the entry of these lands under the homestead or old land laws. It is argued by Senator Hansbrough that in leaving the fee to the land in the government reforestation will take place and the sale of timber will be a source of large revenue.

The second section of the bill amends the lieu land section so as to provide that a settler whose entry falls within a forest reserve selects another piece of land in lieu of his original entry. It must be more valuable for agricultural purposes than for timber or stone. Under the existing law many of the entrymen who find themselves within a forest reserve cut and dispose of the timber on the land and later go outside of the reserve and file a homestead on other timber land.

Proofs To Be Made.

The third section of the bill amends the act of March 11, 1901, and requires all proofs of claimed homestead and desert land entries to be made before registrars and receivers in local land offices. This proposed amendment to existing law is recommended by the commissioner of the general land office, who, in his last report, says: "The privileges gained by the act have been greatly abused, particularly by United States commissioners who have often been parties to wholesale frauds in connection with proofs made before them."
